

Bhaskar Verma

Cloud Solutions Architect

Architecture that connects technical decisions with migration, security, resilience, cost, and delivery.

Dubai, United Arab Emirates | bhaskar@gmail.com | [linkedin.com/in/bhaskarverma](https://www.linkedin.com/in/bhaskarverma) | clouddiver.in

PROFILE

Cloud Solutions Architect with 10+ years of experience designing Azure and AWS solutions across migration, networking, security, resilience, governance, cost optimisation, presales, and partner enablement.

EXPERIENCE

IaaS Cloud Solutions Architect

Ingram Micro | Dubai, United Arab Emirates | Apr 2026 - Present

- Translate partner and customer requirements into practical cloud architectures covering infrastructure, migration, security, resilience, and operations.
- Support AWS partner programs and migration initiatives through technical workshops, funding guidance, and solution design.
- Build solution estimates, scopes, assumptions, discovery questions, and architecture options for cloud opportunities.
- Lead workshops on migration assessment, landing zones, resilience, governance, and migration planning, turning discovery into implementable designs.

Cloud Presales Consultant

CADD Emirates | Dubai, United Arab Emirates | Jun 2024 - Mar 2026

- Architected Azure and AWS solutions for enterprise customers, including hybrid connectivity, data sovereignty, security, and migration requirements.
- Led technical discovery and translated business requirements into scalable architectures, estimates, and implementation approaches.
- Designed high-availability and disaster-recovery patterns and delivered Well-Architected and FinOps assessments to improve resilience and cloud efficiency.

Pentagon System and Services Pvt. Ltd - Mumbai, India | Mar 2021 - Apr 2024

Senior Cloud Solution Architect | Mar 2023 - Apr 2024

- Designed secure multi-cloud architectures spanning Azure and AWS landing zones, security controls, hybrid connectivity, and modernisation.
- Worked with senior stakeholders on cloud transformation, container platforms, serverless adoption, security, and cost governance.
- Produced architecture documentation, migration approaches, resilience patterns, and implementation guidance linking design decisions to operational ownership.

Cloud Solution Architect | Mar 2022 - Mar 2023

- Led Azure and AWS migration programs and standardised infrastructure delivery with Terraform.
- Improved cloud efficiency through rightsizing, autoscaling, and reservation strategies.
- Ran technical discovery, solution validation, and proof-of-concept activities to reduce migration risk before production rollout.

Cloud Engineer | Mar 2021 - Mar 2022

- Operated secure Azure and AWS environments and automated provisioning, patching, and recurring administration.
- Supported Microsoft 365 services including Exchange Online, SharePoint, Teams, OneDrive, and Power Platform.
- Implemented backup, monitoring, access controls, and day-to-day cloud operations while troubleshooting infrastructure and platform issues.

MAQ Software - Hyderabad, India | Mar 2016 - Feb 2021

Systems Engineer | Jun 2016 - Feb 2021

- Administered Azure infrastructure and Microsoft 365 services for a global user base and automated recurring IT operations with PowerShell and Microsoft Graph.
- Built Power Apps and Power Automate workflows to streamline internal IT and HR processes.
- Supported identity, collaboration, endpoint, and access-management operations while improving repeatable administration through scripting and workflow automation.

System Engineering Intern | Mar 2016 - May 2016

Started in systems engineering before moving into a full-time infrastructure and cloud operations role.

CERTIFICATIONS

Microsoft: Azure Solutions Architect Expert (AZ-305) | Azure Administrator Associate (AZ-104) | Azure Virtual Desktop Specialty (AZ-140) | Azure Developer Associate (AZ-204) | Azure Security Engineer Associate (AZ-500) | Azure Network Engineer Associate (AZ-700) | Windows Server Hybrid Administrator (AZ-800, AZ-801) | Azure Fundamentals (AZ-900) | Security, Compliance, and Identity Fundamentals (SC-900)

Amazon Web Services: AWS Certified Solutions Architect - Professional | AWS Certified Developer - Associate | AWS Certified Cloud Practitioner

Google Cloud & Oracle: Google Cloud Certified - Professional Google Workspace Administrator | Oracle Cloud Infrastructure 2024 Certified Architect Associate

CORE SKILLS

Cloud Architecture: Microsoft Azure | AWS | Landing zones | Hybrid and multi-cloud design | PaaS and IaaS architecture

Migration & Resilience: Migration assessment and planning | High availability | Disaster recovery | Backup | RPO/RTO design

Security & Governance: Zero Trust | IAM | Network security | Azure Policy | AWS governance controls | Monitoring and operational guardrails

Automation & Delivery: Terraform | Azure DevOps | PowerShell | Containers | CI/CD | Solution validation and proof of concept

Presales & Partner Enablement: Technical discovery | Estimation | Statements of work | Workshops | Funding/program guidance | Stakeholder engagement

EDUCATION & LANGUAGES

University of Petroleum and Energy Studies: B.Tech in Computer Science, specialising in Telecom Informatics | 2012-2016

Languages: English | Professional working proficiency | Hindi | Native / bilingual proficiency
